Supplementary Figure S1. Age, period, and cohort effects on stroke mortality among young and middle-aged adults in China by age-period-cohort analysis. (A) Age effects on stroke mortality; (B) Period effects on stroke mortality; (C) Cohort effects on stroke mortality.

Supplementary Figure S2. Trends in stroke mortality among young and middle-aged adults in China by sex: observed rates (2002–2019) and predicted rates (2020–2030). Shading indicates the 95% confidence interval of the predicted rates. (A) Trends in stroke mortality for male; (B) Trends in stroke mortality for female.
